**Annual Report of the  
Post-Graduation First  
Destination Survey  
Class of 2023**

## INTRODUCTION

This report provides data related to Seton Hill University student post-graduation outcomes for the class of 2023. The information represented in this report includes only first-destination data secured within six months to one year after graduation. This report adheres to the standards and protocols for collecting first-destination data set forth by the National Association of Colleges and Employers (NACE).

The Seton Hill University Class of 2023 includes the following graduates: August 2022, December 2022, and May 2023. A total of 513 students, consisting of undergraduate and graduate students were contacted to complete the 2023 Post Graduation First Destination Survey. Of the 354 undergraduate students, the Career and Professional Development Center staff determined the post-graduation outcomes for 342 students. This is a knowledge rate of 97%. For graduate students, the Career and Professional Development Center staff determined the post-graduation outcomes for 159 of the 159 students resulting in a 100% knowledge rate. The minimum national average knowledge rate for reporting purposes is 65% as determined by NACE.

Students were surveyed through the First Destination Survey module of the Handshake career management system. Additionally, information was also obtained through faculty, staff, social media, direct phone calls, and email messages sent to the students.
